APPROPRIATIONS: Provides for the ordinary operating expenses of state government

1 AN ACT

Making appropriations for the ordinary expenses of the executive branch of state government, pensions, public schools, public roads, public charities, and state institutions and providing with respect to the expenditure of said appropriations.

Be it enacted by the Legislature of Louisiana:

Section 1. The appropriations in this Act from state revenue shall be payable out of the sources specified and shall be limited by the provisions of Article VII, Section 10(D) of the Louisiana Constitution.

Section 2.A. All money from federal, interagency, statutory dedications, or self-generated revenues shall be available for expenditure in the amounts herein appropriated. Any increase in such revenues shall be available for allotment and expenditure by an agency on approval of an increase in the appropriation by the commissioner of administration and the Joint Legislative Committee on the Budget. Any increase in such revenues for an agency without an appropriation from the respective revenue source shall be incorporated into the agency's appropriation on approval of the commissioner of administration and the Joint Legislative Committee on the Budget. In the event that these revenues should be less than the amount appropriated, the appropriation shall be reduced accordingly. To the extent that such funds were included in the budget on a matching basis with state funds, a corresponding decrease in the state matching funds may be made. Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any

delay would be detrimental to the state. The Joint Legislative Committee on the Budget shall be notified in writing of such declaration and shall meet to consider such action, but if it is found by the committee that such funds were not needed for an emergency expenditure, such approval may be withdrawn and any balance remaining shall not be expended.

B. The commissioner of administration is hereby authorized and directed, pursuant to a plan submitted to and approved by the Joint Legislative Committee on the Budget prior to submission of state certification to the secretary of the Treasury, to reduce the State General Fund (Direct) appropriations contained in this Act by a total amount of \$151,968,000 and to increase the Federal Funds means of financing for such appropriations by a like amount. Such adjustments in means of financing may only be made for purposes which provide essential government services or which cover state costs of complying with any federal intergovernmental mandate (as defined in Section 421(5) of the Congressional Budget Act of 1974) to the extent that the mandate applies to the state, and the federal government has not provided funds to cover the costs. Such adjustments must be consistent with the certifications provided by the state to the secretary of the Treasury that the proposed use of funds to be received by the state under Federal Temporary State Fiscal Relief in Federal Fiscal Years 2003 and 2004 are consistent with federal requirements and shall not be made prior to such certification.

Section 3.A. Notwithstanding any other law to the contrary, the functions of any department, agency, program, or budget unit of the executive branch, except functions in departments, agencies, programs, or budget units of other statewide elected officials, may be transferred to a different department, agency, program, or budget unit for the purpose of economizing the operations of state government by executive order of the governor. Provided, however, that each such transfer must, prior to implementation, be approved by the commissioner of administration and Joint Legislative Committee on the Budget. Further, provided that no transfers pursuant to this Section shall violate the provisions of Title 36, Organization of the Executive Branch of State Government.

B. In the event that any agency, budget unit, program, or function of a department is transferred to any other department, agency, program, or budget unit by other Act or Acts of the legislature, the commissioner of administration shall make the necessary adjustments

to appropriations through the notification of appropriation process, or through approval of mid-year adjustments. All such adjustments shall be in strict conformity with the provisions of the Act or Acts which provide for the transfers.

Section 4. Each schedule as designated by a five-digit number code for which an appropriation is made in this Act is hereby declared to be a budget unit of the state.

Section 5.A. The program descriptions, account descriptions, general performance information, and the role, scope, and mission statements of postsecondary education institutions contained in this Act are not part of the law and are not enacted into law by virtue of their inclusion in this Act.

B. Unless explicitly stated otherwise, each of the program objectives and the associated performance indicators contained in this Act shall reflect the key performance standards to be achieved for the 2003-2004 Fiscal Year and shall constitute the set of key objectives and key performance indicators which are reportable quarterly for Fiscal Year 2003-2004 under the Louisiana Governmental Performance and Accountability Act, particularly R.S. 39:2(23) and (24) and R.S. 39:87.3. Agencies with supporting objectives, performance indicators, and performance standards designated as "To be established" in the Executive Budget shall submit the actual values for such objectives, performance indicators, and performance standards associated with the financing and key performance data contained in this Act to the Division of Administration, Office of Planning and Budget, and the Performance Review Subcommittee of the Joint Legislative Committee on the Budget no later than August 15, 2003. The changes to supporting performance data will be submitted in a format to be determined by the commissioner of administration. Such performance data shall be subject to the review and approval of both the Division of Administration and the Performance Review Subcommittee of the Joint Legislative Committee on the Budget.

Section 6. Unless expressly provided in this Act, funds cannot be transferred between departments or schedules receiving appropriations. However, any unencumbered funds which accrue to an appropriation within a department or schedule of this Act due to policy, programmatic, or cost-saving/avoidance measures may, upon approval by the commissioner of administration and the Joint Legislative Committee on the Budget, be transferred to any other appropriation within that same department or schedule. Each request for the transfer

of funds pursuant to this Section shall include full written justification. The commissioner of administration, upon approval by the Joint Legislative Committee on the Budget, shall have the authority to transfer between departments funds associated with lease agreements between the state and the Office Facilities Corporation.

Section 7. The state treasurer is hereby authorized and directed to use any available funds on deposit in the state treasury to complete the payment of general fund appropriations for the Fiscal Year 2002-2003, and to pay a deficit arising therefrom out of any revenues accruing to the credit of the state general fund during the Fiscal Year 2003-2004, to the extent such deficits are approved by the legislature. In order to conform to the provisions of P.L. 101-453, the Cash Management Improvement Act of 1990, and in accordance with the agreement to be executed between the state and Financial Management Services, a division of the U.S. Treasury, the state treasurer is hereby authorized to release checks drawn on federally funded appropriations prior to the receipt of funds from the U.S. Treasury.

Section 8.A.(1) The figures in parentheses following the designation of a program are the total authorized positions for that program. Any transfer of personnel pursuant to the authority of this Act or any other law shall be deemed a transfer of the position from the original budget entity to the budget entity to which such personnel are transferred.

- (2) The number of authorized positions approved for each department, agency, or program as a result of the passage of this Act may be increased by the commissioner of administration in conjunction with the transfer of functions or funds to that department, agency, or program when sufficient documentation is presented and the request deemed valid.
- (3) The number of authorized positions approved in this Act for each department, agency, or program may also be increased by the commissioner of administration when sufficient documentation of other necessary adjustments is presented and the request is deemed valid. The total number of such positions so approved by the commissioner of administration may not be increased in excess of three hundred fifty. However, any request which reflects an annual aggregate increase in excess of twenty-five positions for any department, agency, or program must also be approved by the Joint Legislative Committee on the Budget.

1

2	commissioner of administration shall have the authority to set the number of positions.
3	(5) Any employment freezes or related personnel actions which are necessitated as
4	a result of implementation of this Act shall not have a disparate employment effect based on
5	any suspect classification, i.e., race, sex, color, or national origin or any negative impact upon
6	the Equal Employment proposition as set out in the "McDonald-Douglas Test" or Title VII
7	of the 1964 Civil Rights Act, as amended.
8	(6) The commissioner of administration, upon approval of the Joint Legislative
9	Committee on the Budget, shall have the authority to transfer positions between departments,
10	agencies, or programs or to increase or decrease positions and associated funding necessary
11	to effectuate such transfers.
12	B. Orders from the Civil Service Commission or its designated referee which direct
13	an agency to pay attorney's fees for a successful appeal by an employee may be paid out of
14	an agency's appropriation from the expenditure category professional services; provided,
15	however, that an individual expenditure pursuant to this Subsection may not exceed \$1,500
16	in accordance with Civil Service Rule 13.35(a).
17	C. The budget request of any agency with an appropriation level of thirty million
18	dollars or more shall include within its existing table of organization the position of internal
19	auditor.
20	D. In the event that any cost assessment allocation proposed by the Office of Group
21	Benefits becomes effective during Fiscal Year 2003-2004, each budget unit contained in this
22	Act shall pay out of its appropriation an amount no less than 75% of total premiums for all
23	active employees and those retirees with Medicare in accordance with R.S. 42:851(A)(1) for
24	the state basic health insurance indemnity program.
25	E. In the event that any cost allocation or increase adopted by the Joint Legislative
26	Committee on Retirement as recommended by the Public Systems' Actuarial Committee
27	becomes effective before or during Fiscal Year 2003-2004, each budget unit shall pay out of
28	its appropriation funds necessary to satisfy the requirements of such increase.
29	Section 9. In the event the governor shall veto any line-item of expenditure and such
30	veto shall be upheld by the legislature, the commissioner of administration shall withhold

(4) If there are no figures following a department, agency, or program, the

from the department's, agency's, or program's funds an amount equal to the veto. The commissioner of administration shall determine how much of such withholdings shall be from the state general fund.

Section 10.A. Pursuant to Article IV, Section 5(G)(2) and Article VII, Section 10(F) of the constitution, if at any time during Fiscal Year 2003-2004 the official budget status report indicates that appropriations will exceed the official revenue forecast, the governor shall have full power to reduce appropriations in accordance with R.S. 39:75, except that notwithstanding the provisions of R.S. 39:75(C), the governor may reduce appropriations not to exceed ten percent in the aggregate of the total appropriations for each budget unit.

B. The governor shall have the authority within any month of the fiscal year to direct the commissioner of administration to disapprove warrants drawn upon the state treasury for appropriations contained in this Act which are in excess of amounts approved by the governor in accordance with R.S. 39:74.

C. The governor may also, and in addition to the other powers set forth herein, issue executive orders in a combination of any of the foregoing means for the purpose of preventing the occurrence of a deficit.

Section 11.A. Notwithstanding the provisions of Section 2 of this Act, the commissioner of administration shall make such technical adjustments as are necessary in the interagency transfers means of financing and expenditure categories of the appropriations in this Act to result in a balance between each transfer of funds from one budget unit to another budget unit in this Act. Such adjustments shall be strictly limited to those necessary to achieve this balance and shall in no way have the effect of changing the intended level of funding for a program or budget unit of this Act.

B. The commissioner shall make such technical adjustments as necessary in the Interagency Transfers expenditure categories of the appropriations in this Act to result in each agency only transferring to State Civil Service, Department of Civil Service (Schedule 17-560), an amount equal to seventy-five percent of the agency's fiscal year 2002-2003 Interagency Transfers to that Schedule. Provided, however, that the amount of such Interagency Transfers reduced to State Civil Service, Department of Civil Service (Schedule 17-560), shall remain in the transferring agency's budget.

1	Section 12.A. For the purpose of paying appropriations made herein, all revenues due
2	the state in Fiscal Year 2003-2004 shall be credited by the collecting agency to Fiscal Year
3	2003-2004 provided such revenues are received in time to liquidate obligations incurred
4	during Fiscal Year 2003-2004.
5	B. A state board or commission shall have the authority to expend only those funds
6	that are appropriated in this Act, except those boards or commissions which are solely
7	supported from private donations or which function as port commissions, levee boards or
8	professional and trade organizations.
9	Section 13.A. Notwithstanding any other law to the contrary, including any provision
10	of any appropriation act or any capital outlay act, no special appropriation enacted at any
11	session of the legislature, except the specific appropriations acts for the payment of
12	judgments against the state, of legal expenses, and of back supplemental pay, the
13	appropriation act for the expenses of the judiciary, and the appropriation act for expenses of
14	the legislature, its committees, and any other items listed therein, shall have preference and
15	priority over any of the items in the General Appropriation Act or the Capital Outlay Act for
16	any fiscal year.
17	B. Appropriations from the Transportation Trust Fund in the General Appropriation
18	Act and the Capital Outlay Act shall have equal priority. In the event revenues being
19	received in the state treasury and being credited to the fund which is the source of payment
20	of any appropriation in such acts are insufficient to fully fund the appropriations made from
21	such fund source, the treasurer shall allocate money for the payment of warrants drawn on
22	such appropriations against such fund source during the fiscal year on the basis of the ratio
23	which the amount of such appropriation bears to the total amount of appropriations from
24	such fund source contained in both acts.
25	Section 14. Pay raises or supplements provided for by this Act shall in no way
26	supplant any local or parish salaries or salary supplements to which the personnel affected
27	would be ordinarily entitled.

agency during Fiscal Year 2002-2003 pursuant to the Exceptional Performance and

Efficiency Incentive Program may be carried forward for expenditure in Fiscal Year 2003-

Section 15. Any unexpended or unencumbered reward monies received by any state

2004, in accordance with the respective resolution granting the reward. The commissioner of administration shall implement any internal budgetary adjustments necessary to effectuate incorporation of these monies into the respective agencies' budgets for Fiscal Year 2003-2004, and shall provide a summary list of all such adjustments to the Performance Review

Subcommittee of the Joint Legislative Committee on the Budget by September 15, 2003.

Section 16. Should any section, subsection, clause, sentence, phrase, or part of the Act for any reason be held, deemed or construed to be unconstitutional or invalid, such decisions shall not affect the remaining provisions of the Act, and the legislature hereby declares that it would have passed the Act, and each section, subsection, clause, sentence, phrase, or part thereof, irrespective of the fact that one or more of the sections, subsections, clauses, sentences, phrases, or parts thereof, is declared unconstitutional or invalid. To this end, the provisions of this Act are hereby declared severable.

Section 17. All BA-7 budget transactions, including relevant changes to performance information, submitted in accordance with this Act or any other provisions of law which require approval by the Joint Legislative Committee on the Budget or joint approval by the commissioner of administration and the Joint Legislative Committee on the Budget shall be submitted to the commissioner of administration, Joint Legislative Committee on the Budget and Legislative Fiscal Office a minimum of sixteen working days prior to consideration by the Joint Legislative Committee on the Budget. Each submission must include full justification of the transaction requested, but submission in accordance with this deadline shall not be the sole determinant of whether the item is actually placed on the agenda for a hearing by the Joint Legislative Committee on the Budget. Transactions not submitted in accordance with the provisions of this Section shall only be considered by the commissioner of administration and Joint Legislative Committee on the Budget when extreme circumstances requiring immediate action exist.

Section 18.A. Except for the conditions set forth in Subsection B of this Section, the following sums or so much thereof as may be necessary are hereby appropriated out of any monies in the state treasury from the sources specified; from federal funds payable to the state by the United States Treasury; or from funds belonging to the state of Louisiana and/or collected by boards, commissions, departments, and agencies thereof, for purposes specified

herein for the year commencing July 1, 2003, and ending June 30, 2004. Funds appropriated to auxiliary programs herein shall be from prior and current year collections, with the exception of state general fund direct. The commissioner of administration is hereby authorized and directed to correct the means of financing and expenditures for any appropriation contained in Schedule 20-901 - Sales Tax Dedications to reflect the enactment of any law enacted in any 2003 Regular Session of the Legislature which affects any such means of financing or expenditure. Further provided with regard to auxiliary funds, that excess cash funds, excluding cash funds arising from working capital advances, shall be invested by the state treasurer with the interest proceeds therefrom credited to each account and not transferred to the state general fund. This Act shall be subject to all conditions set forth in Title 39 of the Louisiana Revised Statutes of 1950 as amended.

B.(1) No funds appropriated in this Act shall be transferred to a public or quasi public agency or entity which is not a budget unit of the state unless the intended recipient of those funds presents a comprehensive budget to the legislative auditor and the transferring agency showing all anticipated uses of the appropriation, an estimate of the duration of the project, and a plan showing specific goals and objectives for the use of such funds, including measures of performance. In addition, and prior to making such expenditure, the transferring agency shall require each recipient to agree in writing to provide written reports to the transferring agency at least every six months concerning the use of the funds and the specific goals and objectives for the use of the funds. In the event the transferring agency determines that the recipient failed to use the funds set forth in its budget within the estimated duration of the project or failed to reasonably achieve its specific goals and objectives for the use of the funds, the transferring agency shall demand that any unexpended funds be returned to the state treasury unless approval to retain the funds is obtained from the division of administration and the Joint Legislative Committee on the Budget. Each recipient shall be audited in accordance with R.S. 24:513. If the amount of the public funds received by the provider is below the amount for which an audit is required under R.S. 24:513, the transferring agency shall monitor and evaluate the use of the funds to ensure effective achievement of the goals and objectives.

1	(2) Transfers to public or quasi public agencies or entities that	have submitted a
2	budget request to the division of administration in accordance with Part	II of Chapter 1 of
3	Title 39 of the Louisiana Revised Statutes of 1950 and transfers author	rized by specific
4	provisions of the Louisiana Revised Statutes of 1950 and the Constitution	on of the State of
5	Louisiana to local governing authorities shall be exempt from the p	rovisions of this
6	Subsection.	
7	C. Appropriations contained in this Act which are designated as	"GOVERNOR'S
8	SUPPLEMENTARY BUDGET RECOMMENDATIONS (Contingent of	upon Fiscal Year
9	2002-2003 Debt Defeasance)" shall not be effective until the Fiscal Year	· 2003-2004 Debt
10	Schedule is reduced as a result of the Fiscal Year 2002-2003 Debt Defear	sance. Should the
11	amount of the defeasance be less than the amount required for the appropri	ations in this act,
12	the appropriations shall be reduced on a pro rata basis.

#### Client Services - Authorized Positions (2,641)

201,855,994

Program Description: Determines the eligibility of families for benefits and services available under the Family Independence Temporary Assistance Program (FITAP). Provides case management services to FITAP recipients to assist them to become self-supporting. Facilitates mechanisms for other TANF-funded services. These services include: coordination of contract work training activities; providing transitional assistance services, including subsidized child day care and transportation; and contracting for the provision of job readiness, job development, job placement services, and other relevant TANF-funded services. Also determines the eligibility for Food Stamp benefits, cash grants to low income refugees, repatriated impoverished U.S. citizens and disaster victims. Also contracts for the determination of eligibility for federal Social Security Disability Insurance (SSDI), and Social Security Insurance (SSI) benefits, and operates the support enforcement program which establishes paternity, locates absent parents, and collects and distributes payments made by an absent parent on behalf of the child(ren) in the custody of the parent. Determines eligibility and administers child care assistance, which includes quality child care projects, provider training, and development.

Objective: To assess and refer TANF-eligible families to appropriate benefits and services.

21 99% Percentage of cost reports processed within 3-5 days of receipt 94% Percentage compliance with Civil Service rules

#### 23 Child Welfare Services - Authorized Positions (1,838)

200,812,800

Program Description: Provides services designed to promote the well-being of children, and stability and permanence for foster children in the custody of the Office of Community Services. The child protection investigation activity examines reports of child abuse and neglect and substantiates an average of about 40% of the cases investigated. Should a report be validated, the child and family are provided social services, which may include protective day care, with the focus of keeping the family intact. If the child remains at risk for abuse or neglect while in the family home s(he) is removed, enters into a permanency planning process, and is placed into state custody in a temporary foster care, or a therapeutic residential setting. Adoption services are provided to children permanently removed from their homes, and freed for adoption. Other services offered by the agency include substitute family home development, recruitment and training of foster and adoptive parents, subsidies for adoptive parents of disabled children, and child care quality assurance.

**Objective:** To ensure that children are first and foremost protected from abuse and neglect and reduce the recurrence of child abuse and/or neglect of children while in the custody of the Louisiana Department of Social Services.

#### **Performance Indicators:**

Percentage of all children who were victims of substantiated or indicated child abuse and/or neglect during the period under review, who had another substantiated or indicated report within a 12-month period 6.1% Average number of new cases per Child Protection Investigation (CPI) worker per month 10 Percentage of interventions completed within 60 days 50% Percentage of alleged victims seen in child protection 97% Percentage of alleged victims seen within the assigned response priority in child protection investigations 79%

**Objective:** To reduce the incidence of child abuse and/or neglect of children in foster care.

32	Program Description: Mineral property rights are important to the economy of		
33 34	Louisiana. A system of regulations is required to ensure that the rights of all		
35	parties involved in the exploration and production of oil, gas and other natural resources can be respected. To this end, this program pursues its mission of		
36	regulating the exploration and production of oil, gas and other natural resources		
37	under the guidance of, and in support of, the Commissioner of Conservation. This		
38 39	effort requires extensive geological and engineering study of requests for new		
39 40	wells, unitization requests and other activities related to mineral exploration and production as well as the maintenance of a depository of records.		
41 42	<b>Objective:</b> To demonstrate success in protecting the correlative rights of all parties		
42	involved in oil and gas exploration and production by ensuring that 90% of Conservation Orders from oil and gas hearings are issued within 30 days; that 98%		
44	of critical date requests are issued within the requested time frame; and that 99%		
45	of all oil and gas Conservation Orders result in no legal challenges.

Responsibilities include the following: to employ and/or 24 approve the employment and establish and/or approve the salary of board and university 25 personnel; to actively seek and accept donations, bequests, or other forms of financial 26 assistance; to set tuition and fees; to award certificates, confer degrees, and issue diplomas; 27 to buy, lease, and/or sell property and equipment; to enter into contractual arrangements on 28 behalf of the institutions; to adopt academic calendars; to sue and be sued; to establish and 29 enforce operational policies for the board and institutions; and to perform other such 30 functions as are necessary or incidental to the supervision and management of their 31 respective system. 32 Provided that funds which were specifically appropriated for implementation of the United 33 States v. State of Louisiana Settlement Agreement, that remain unexpended on June 30, 34 2003, shall be hereby reappropriated for use by each management board for the continued 35 implementation of the Agreement. 36 Provided, however, that funds which were specifically appropriated in Fiscal Year 2002-37 2003 for implementation of the Governor's Biotechnology Initiative, that remain unexpended 38 on June 30, 2003, shall be hereby reappropriated for use by each management board for the 39 continued implementation of the Initiative. 40 Provided, however, that funds which were specifically appropriated in Fiscal Year 2002-41 2003 for implementation of the Governor's Information Technology Initiative, that remain 42 unexpended on June 30, 2003, shall be hereby reappropriated for use by each management 43 board for the continued implementation of the Initiative. Also provided, however, the 44 continued funding provided in Fiscal Year 2003-2004 to the Board of Regents for allocation 45 of the Louisiana Community and Technical College System shall be distributed based on a 46 plan developed by the Louisiana Community and Technical College Board of Supervisors 47 and the Board of Regents and approved by the Division of Administration.

HLS 03-895 H.B. NO. 1

1 Provided, however, that any school which receives funding for the Governor's Information

- 2 Technology Initiative shall provide a report to the Board of Regents, Division of Administra-
- 3 tion, House Appropriations Committee, Senate Finance Committee, and Legislative Fiscal
  - Office no later than March of each fiscal year detailing the use of the funding as well as
- 5 performance information.

- 6 MASTER/Strategic Plan for Postsecondary Education: In accordance with Article VIII,
- Section 5(D)(4) of the Constitution and Act 1465 of 1997, the Master Plan for Postsecondary 7
- 8 Education identifies three primary goals: (1) increase opportunities for student access and
- success, (2) ensure quality and accountability, and (3) enhance services to community and 9
- state. Through the specification of the role, scope, and mission of each postsecondary 10
- institution and the adoption of a selective admissions framework, objective targets have been 11
- 12 identified. Strategic and operational plans reflect regional and institutional strategies for
- attainment of these statewide goals. 13
- 14 Provided, however, that general performance information associated with Alternative
- Teacher Certification shall be submitted no later than August 15, 2003, by the Board of 15
- 16 Regents to the commissioner of administration and the Performance Review Subcommittee
- 17 of the Joint Legislative Committee on the Budget for approval and incorporation into the
- 18 Fiscal Year 2003-2004 budget. This information shall be submitted in conformance with the
- 19 forms and guidelines established by the Division of Administration.
- 20 Formula: The Board of Regents is constitutionally required to develop a formula for the
- 21 equitable distribution of funds to the institutions of postsecondary education. The board has
- 22 adopted a new mission-driven formula for two-year and four-year institutions, with separate
- 23 funding formulas/plans for the Louisiana Technical College, medicine, veterinary medicine,
- 24 law, agricultural, research, and public service programs that consists of an operational
- 25 funding plan that includes three broad components: Core Funding; Quality/Campus Improvement and State Priorities Funding; including Workforce and Economic Develop-26
- 27 ment; and Performance Incentive Initiatives Funding.
- 28 In the development of the core funding component of the formula funding strategy, the
- 29 following goals were identified: addressing equity concerns; recognizing differences in
- 30 institutional missions; encouraging some campuses to grow and others to raise admission
- standards; and recognizing special programs. To address these goals, the new formula core 31
- funding component includes as ingredients: mission related funding targets, a high cost 32 33 academic program factor, an enrollment factor, and allowance for special programs.
- 34 The quality component of the new formula allows for: targeting resources to strategic
- 35 programs, connecting funding policies with values and strategies identified in the Master
- 36 Plan for Postsecondary Education, allocating resources to support the state's economic
- development goals, encouraging private investment, encouraging efficiencies and good 37
- management practices, and providing resources to support a quality learning environment. 38
- The performance component of the new formula is designed to promote performance 39
- 40 evaluation and functional accountability. The Board of Regents will continue to develop
- 41 appropriate evaluation mechanisms in the following areas: student charges/costs, student
- advancement, program viability, faculty activity, administration, and mission specific goals 42
- unique to each institution. 43
- 44 The other sources of revenues used to fund the operations of institutions are self-generated
- 45 revenues, consisting of tuition and mandatory fees, interagency transfers from other state
- 46 agencies, and unrestricted federal funds.
- 47 Provided, however, that Fees and Self-generated Revenues that are to be increased for Fiscal
- Year 2003-2004 contingent on the passage of any legislative instrument in the 2003 Regular 48
- 49 Session of the Louisiana Legislature shall be included as part of the appropriation for the
- 50 respective board of supervisors and system allocation upon enactment of such legislation.
